"During lengthy operations he led his Battalion to an attack, placing himself so that all his men could see him, and despite the heaviest fire broke through all opposition. Later, he was ordered to counter-attack over a large area which was swept by severe shell and machine-gun fire. He initiated the advance by section rushes and then walked calmly forward with his Battalion. His personal courage and resource was magnificent." Was A.D.C. to Sir George LeHunte, G.C.M.G. when the war broke out and was the first Britisher to leave for the front from Trinidad, taking passage on R.M.S. "Trent" on the 4th August, 1914.

▲ ATKINSON, EDWARD LEYCESTER.—Surgeon Royal Navy (Acting Staff Surgeon). Was awarded the D.S.O. in recognition of his services as Senior Medical Officer of the R.M.A. Howitzer Brigade since May 26th, 1916. The official record states: "He has carried out his duties with the greatest zeal and energy, and has shown an excellent example of his fearlessness and devotion to duty. OWEN, WILLIAM H.—Captain R.N.R., who returned from Trinidad to England early in the War for service with the Royal Navy, was awarded the D.S.O. on the occasion of the King's Birthday "for meritorious services in special naval war work." At the beginning of the war Captain Owen did very valuable work in Trinidad, under the administration of the then Governor, Sir George Le Hunte, by whom he was appointed Honorary Port Officer. (His son, Major Wyrriott Owen, was awarded the Military Cross, and father and son received their decorations on the same day—July 25th—at the hands of His Majesty King George V.) He was awarded the D.C.M. for bravery in the field. He returned to England in July, 1915, and was gazetted to the Welsh Guards, and went to France in September. Was severely wounded and invalided home for 3 months, when he again returned to France. As Major 1st Battalion 7th Welsh Guards he was awarded the D.S.O. "When in command of his battalion during several days of severe fighting, he was invariably in the front line superintending operations, without the slightest regard for personal danger. On one occasion, 4th September, 1918, prior to an assault, he walked about in the open in spite of the heavy hostile fire, placing the men in their assembled positions, and the great success achieved by the battalion was mainly due to the splendid example set by him." He has also been Mentioned 3 times in Despatches. He wrote once, "I am hoping soon to get a bar to my D.S.O. as it is a fine thing to command men who will go straight into Hell's gate at the word of command, and that's the crowd I've got. As I had been in six battles since the 24th August, I got special leave and returned to the Front on November 3rd." As Lt. Colonel he is now with his Battalion with the Army of Occupation at Cologne, and is also Judge of a Summary Court of Justice, to deal with any Hun that may make a breach of the New Military Laws. MARQUES, ALBERT.—Private 1st Battn., B.W.I. Regt. Awarded the Military Medal "For gallantry and devotion to duty in action. On the 22nd September, 1918, at Damieh Bridgehead, Palestine, this Private, noticing an enemy bombing post which was holding up the attack, he single-handed worked his way round their flank and bombed them out, killing six of the enemy grenade party, wounding two, and taking two as prisoners."

LEEKHAM, THEODORE McCOLLIN.—Lance-Corporal (Acting Corporal) 1st Battn. B.W.I. Regt. Awarded the Military Medal for gallantry and devotion to duty in action. On the 22nd September, 1918, at Damieh Bridgehead, Palestine, this N.C.O. was in charge of four Lewis guns, and greatly assisted his company during the attack by taking up a forward position on the flanks and bringing a heavy fire to bear on the enemy. After the attack, which had been successful, he, of his own accord, took his guns forward to the high ground overlooking the bridge, and brought a heavy fire to bear on the bridge itself, killing a number of the enemy who were crossing at the time. By this action he prevented the enemy from escaping, and enabled his Company to capture over 100 prisoners and three machine-guns. He showed great resource, and used his guns with extreme efficiency." He left with the 1st Public Contingent on 18th September, 1915.

HYNDMAN, CHRISTOPHER ADOLPHUS.—Private 1st Battn. B.W.I. Regt. Awarded the Military Medal for gallantry and devotion to duty on November 7th, 1917. When his company was covering the withdrawal of a Squadron of Imperial Service Cavalry from Two Tree Farm, he, under heavy shell fire, repeatedly volunteered to run messages from the Officer conducting the withdrawal to the advanced parties. He showed a fine example of courage and devotion to duty to those around him in trying circumstances." He left with the First Public Contingent on 18th September, 1915.

DISTINGUISHED CONDUCT MEDAL.

TURPIN, RICHARD.—Lance-Corporal 1st Battalion B.W.I. Regt. Awarded the Distinguished Conduct Medal for gallantry and devotion to duty in action. On the 20th September, 1918 at Baghalat, Jordan Valley, Palestine, when one Company of the Battalion had occupied that place under heavy shell fire, he ran a signal wire from Musallahah to Baghalat, a matter of 2½ miles, under heavy shell fire. In the morning on two occasions he went out alone under heavy shell fire and repaired the wire, which had been cut by enemy artillery fire. On returning to the Battalion Headquarters in the afternoon, he volunteered twice to go out and repair the wire under similar circumstances." He left with the First Public Contingent, on 18th September, 1915.

LUXMORE-BALL, RICHARD EDWIN CECIL.—As Private 1st Rhodesian Regiment,—won the D.C.M. in German South-West Africa. Now Lieut.-Col. 7th Welsh Guards.

DISTINGUISHED FLYING CROSS.

POGSON, DESMOND PHILIP.—2nd Lieut. Royal Air Force. Awarded the Distinguished Flying Cross for acts of gallantry: "In a recent long-distance bombing raid his petrol tank received a shot immediately after crossing the line, but he continued on his journey and bombed the distant objective. On the return journey very fierce fighting occurred, during which both leaders and deputy-leaders of our formations were shot down, and the remaining machines lost touch with each other. At this critical moment 2nd Lieut. Pogson ordered his observer to tie his handkerchief to the gun-mounting to indicate that his was the leader's machine. He then circled over the area three times and picked up five of our machines, and in face of very hostile opposition got them into formation and brought them all safely home. The prompt action of this officer was highly meritorious, and undoubtedly saved the remaining machines, which could not have coped with the greatly superior formations of the enemy. This was the 4th D.F.C. won for the West Indies, (the first being won by Antigua, next Jamaica and then Bahamas). Son of Frank Pogson, M.R.C.V.S., late Trinidad Civil Service.

CUMMINGS, F. H.—Lieut. and Temporary Captain Seaforth Highlanders. Awarded the Distinguished Flying Cross for gallant deeds. "This officer carried out over 100 night bombing raids, often under most adverse weather conditions and in face of very hostile fire. On three consecutive nights he bombed two enemy aerodromes, obtaining direct hits at 1,000 feet altitude. On another raid, owing to engine trouble he was unable to climb over 2,000 feet; he nevertheless reached his objective. On all occasions this officer displayed marked determination and courage." He was employed as manager of his brother-in-law, Mr. Stanley Saville's estate in Tobago before the war. The fifth D.F.C. has therefore fallen to Tobago.

Dear Boys of Ours.

“ They would not have us weep,

Dear boys of ours whom we have lost awhile.

Rather they'd have us keep

Brave looks, and lips that tremble to a smile. . . .

They would not have us grieve,

Dear boys of ours whose valiant hearts are stilled ;

Nor would they have us leave

OUR task undone ; OUR service unfulfilled.”

WHAT DO YOU THINK OF THIS?

1. We pay all our profits to our Policy-holders.
2. The average annual dividends we have paid to Policy-holders during 14 years has been over 70% of the premiums paid to us.
3. Irrespective of dividends we charge

THE CHEAPEST INSURANCE RATES

in the Colony.

4. We have been the direct means of reducing to their present level the fire insurance premiums that were charged in Trinidad before we came into existence.
5. Our total losses in 14 years have barely exceeded \$1,000.00.
6. Every cent that is paid to us we keep in this Island—this is economically sound, and makes for the welfare of the Colony.
7. For the above reasons we think that every man in Trinidad should insure his house, estate buildings, and furniture with this Company.

INTRODUCTION.

The 54th Volume of the Trinidad and Tobago Year Book (the 4th under our management and already popularly known as "Franklin's Year Book,") is somewhat late this year in making its bow to the public. The reasons are many, not the least being the exigencies of the paper market and uncertain shipping facilities, and we therefore crave the indulgence of our numerous patrons for its late appearance.

As already announced the outstanding feature this year is the publishing of the various War Funds, etc., shewing what the Colony of Trinidad and Tobago has done for the War in the way of "Money." Last year we showed what had been done as a Colony in the way of "Men." It has not been possible to get a complete list of all funds, only the principal ones being reported on by their Secretaries, but there are many casual funds which we have been able to obtain. Besides the funds contributed to War charities proper, there is also included a statement shewing what the War has cost the Colony, the figures of which will appear astounding. On the whole Trinidad and Tobago should be proud of what has been done, and we, also, for being able to publish such a list as appears in our annual, which will doubtless be kept as a Souvenir.

We have maintained the feature of keeping a record of "Our Boys" at the Front, and in this number will be found a greatly increased Honour Roll, we regret to say, and a much larger list of Distinctions for valour—among these being no less than 33 men who have won the Military Cross—20 photos of whom will be found reproduced here, as well as full details of the exploits which won them. We have also added 24 more photos of "Our Boys" who have made the Supreme Sacrifice, making a total of 86 photos in this Souvenir Volume. As the War is over, thank God, these names and list of War Funds will not be published again, so this number ought to be quickly sold out.

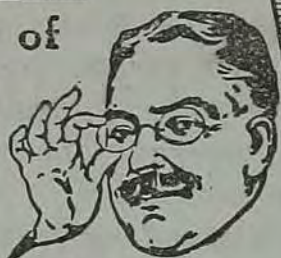

To keep abreast of all the facts necessary for producing this volume has been a somewhat difficult matter, but as our desire has ever been to give our patrons a useful handbook, we have sacrificed punctuality for increased information, thus making this popular annual more popular still. We trust the public will again be satisfied with our efforts to please them in the production of a handbook that will ensure constant reference thereto.

The Barbados Section, which will be found as usual on the Tinted pages, will appeal to those who may feel inclined to take a pleasure trip or health trip to that beautiful island. The Ads therein tell their own tale of what will be found at that popular health resort.

Our thanks are again tendered to the West India Committee for much information regarding "Our Boys" gleaned from their Circular.

## Brief Sketch of the Islands of Trinidad and Tobago.

---

### TRINIDAD.

THE lovely Island of Trinidad which is situated about 10 degrees north of the Equator, between the 61st and 62nd degrees, West Longitude, in the southern part of the Caribbean sea, is only separated from the Venezuelan coast of America by the Gulf of Paria and the narrow channels of the Bocas. It is the second largest of the British West Indies, and being about 55 miles long and 40 miles broad with an area of 1,974 square miles may well be compared in point of size to the English county of Lancashire.

Trinidad was discovered by Christopher Columbus or Cristobal Colon, on July 31st, 1498, at which time it was peopled by several tribes of Indians, the two chief being the Arouacks and the Chaimas. Though these have long disappeared we observe traces of them in the names Tamana, Guaracara, Chacachacare, Aricagua, Carapichaima, Arouca, etc., which indicate the localities of some of their settlements. Religious feelings prompted Columbus to name our island Trinidad, the formation of the hills being suggestive of the Trinity. Prior to this it had borne the Indian name of Iëre, or land of humming birds.

About ninety years after the visit of the Genose navigator, the Spanish took possession of the Island, and in course of time, founded several towns, among others San José de Oruña, now St. Joseph, which they made their capital, and it was in the early days of the

Spanish appropriation, that Sir Walter Raleigh, while cruising about on his ill-starred "El Dorado" expedition, attacked and burnt St. Joseph.

In 1780, one Roume de St. Laurent, a Frenchman residing in Grenada, while paying a visit to Trinidad, was so struck by the fertility of the soil, that through his representations to the Government, a Cedilla was passed which led to the migration in 1783 of a flock of foreign agriculturists, chiefly French but with a fair sprinkling of coloured people from the neighbouring islands. M. de St. Laurent may therefore, be considered the pioneer of French colonization in Trinidad. From time to time the population was augmented by the importation of African slaves, and in 1846 by the influx of several Portuguese driven from Madeira by religious persecution.

In 1797, England being then at variance with Spain, sent an expedition under Sir Ralph Abercromby and Rear-Admiral Harvey to capture this island. Don Chacon, the Governor, finding himself out-numbered surrendered without any engagement, and for over 122 years Trinidad has been a British colony.

The temperature ranges from about 70 deg. Fahr. at dawn to 87 deg. between two and three in the afternoon, dropping after that hour. With so many natural advantages, it is not surprising that Trinidad has become a recognised winter resort for well-to-do Europeans and Americans. Hotel accommodation is ample, furnishing a further inducement to tourists or persons of weakly constitution, who may be glad to escape the rigorous winters of northern latitudes.

The wet season lasts about five or six months, commencing as a rule, early in June, though sometimes earlier. The rainfall for 1912 was 49.3 inches, the average rainfall per year during the fifty-one years 1862-1912, being 64.86 inches; the wettest month is generally August.

Fully one-third of the inhabitants are East Indian immigrants or descendants of immigrants brought hither by the Government, and indentured to planters for a term of years. They were first introduced in 1845, and are the chief labourers, since they will work at a cheaper rate than the negroes. The soil is remarkably fertile and, indeed, upon its agriculture the future of Trinidad mainly depends. Sugar, (including rum and molasses) and cacao are the staples, but, besides these there are coconuts, coffee, bananas, oranges, tobacco and rubber. The forests abound in valuable hardwood trees, many of them little known in England, but which, having a very fine grain, are capable of a brilliant polish.

Limestone, excellent material for road making and building purposes, is obtained abundantly from the quarries near town. Fine specimens of crystallized quartz, may be picked up any day in the neighbourhood of the mountain; while in St. Joseph and Naparima hills are strata of gypsum. Mineral springs occur—one in Maracas valley, emitting a strong smell of sulphuretted hydrogen; another at Pointe-a-Pierre, containing traces of oxide of iron, sulphate of magnesia, etc., a third in Santa Cruz; a fourth, with incrustating properties at Diego Martin; and lastly, one in North Oropuche, about half a mile from the famous Guacharo caves.

**PETROLEUM.**—The existence of Petroleum in Trinidad has long been known, but to what extent has only of very recent years been demonstrated.

The first efforts to obtain petroleum were made by the "Merrimac" Company, which bored a hole in the vicinity of the celebrated Pitch Lake—in the years 1857-9—this boring is said to have been sunk to a depth of 280 feet, and still gives oil at the present time. Litigation, ill-health of the workmen, and the discovery of Petroleum in the U.S. of America all contributed to the failure of the Company, and operations were abandoned.

The next attempt was made by Capt. Walter Darwent in the years 1866-7, but after boring holes at San Fernando and on the Aripéro Estate, Oropuche, the attempt was given up, mainly owing to the very inadequate tools used, and want of knowledge on the part of the drillers to bore to any depth. A well was sunk to the depth of 160 ft. and produced oil in small quantities, and this well is also giving oil after a lapse of 48 years, tho' being partly choked by stones, bits of old iron, etc., dropped down by curious visitors.

No further attempts to produce petroleum were made until in 1901. Mr. Randolph Rust, who was firmly convinced that oil existed in large quantities in the Island, commenced drilling at Aripéro Estate, and also at Guayaguayare, on the East Coast.

At first this later attempt was only partially successful, owing to the strata bored through being of unknown character, but as wells were sunk and local conditions grasped, several Companies were formed to drill for oil, and in many cases with marked success.

In 1866-7 the oil production of Trinidad amounted to some sixty (60) gallons per week (from the well at Aripéro), the official record of petroleum produced in the year 1914-5 gives 36,753,931 imperial gallons. The number of wells sunk that year were 65, and the total depth of drilling for same period was 57,969 feet.

The quality of the oils found range from heavy asphaltic to light oils with paraffin base, some oils giving as much as 51% petrol spirit. Refineries are now at work producing gasolene, kerosine, lubricating and fuel oils.

Immense storage tanks, have been erected in several of the fields, shipping places provided with jetties to deep water, and pipe lines laid. Altogether the petroleum industry bids fair to be of great value to Trinidad.

It is also interesting to note that several wells have produced oil in large quantities under gas pressure, wells giving 30 to 40,000 barrels (40 gallons to barrel) per day have been sunk, and in September, 1915, a well in the Barrackpore district, spouted oil to the extent of 180,000 barrels in sixty hours.

From the small beginnings in 1857-9 has the present production risen, and so far only a very small portion of the oil lands of the Colony been drilled upon. The total production for 1917 amounted to 56,080,914 gallons against 66,900,991 gallons for the first 10 months of 1918.

The total shipments for 1918—foot up—45,689,234 gallons, of this 72,859 gallons were lubricating oil, 2,018,455 kerosene, 2,741,622 gasolene, 12,936,283 crude and 27,920,015 fuel oil.

'The bulk of the crude oil, fuel oil and gasolene exported was for the use of the British Navy, and the prediction made by Mr. Rust, in a lecture he gave in 1910, when he stated:— "my greatest cause for satisfaction lies in the knowledge that an abundant source of fuel oil for the Navies of my Motherland, has been found in the land of my adoption, beautiful 'Ière,' " has proved correct.

In 1797, under the first British Governor, the population was 17,718. In 1838 it had increased to 39,328, in 1891 to 200,028, and in 1916 to 368,231, of which 110,000 are East Indian or of East Indian descent. The trade and production of the Island have increased enormously under British rule. The annual export of sugar for the three years 1839-41 averaged 11,990 tons; that for the year 1915 amounted to 50,608 tons, representing in value one million pounds sterling! The average output of cocoa for the three years 1841-23 was 1,254 tons annually, whereas for the year 1915 it amounted to 24,143 tons, representing nearly two million pounds sterling!

In February, 1914, a successful Intercolonial Art Needlework Exhibition at the Royal Victoria Institute and Prince's Building was graciously opened by Her Highness Princess Marie Louise of Schleswig-Holstein who was at the time visiting Trinidad.

The Railway extensions to Siparia and Rio Claro are now open to traffic, but work on the much-needed new Railway Station at Port-of-Spain has been suspended in the meantime.

### PORT-OF-SPAIN.

Port-of-Spain the capital, situated on the shores of the Gulf of Paria, about two miles from the mouth of the Caroni River, and described in Whitaker's Almanack as being "one of the finest towns in the West Indies," stands on the site of an old Indian Village called *Conquerabia*. Here are the cathedrals of the Anglican and Roman Catholic Churches and the principal public buildings. The streets are lighted with electric light, and the main routes served with electric trams. Telephones are in constant use both for business and private life—so that Port-of-Spain, with its large well-equipped stores, fine squares and imposing public buildings may fairly be considered an up-to-date city. The population is 63,754.

In the centre of Woodford Square (late Brunswick), is a fountain, presented to the city by the late Mr. Gregor Turnbull. The statue of Christopher Columbus in Columbus Square was given by Mr. Hypolite Borde, while that of Lord Harris, an able Governor in the 'forties, in Harris Square, is the gift of Mr. Arthur Protheroe. Facing the west side of Woodford Square is the Red House, on the east Greyfriars Presbyterian Kirk, to the south Holy Trinity Cathedral, and on the north side the Town Hall and the Public Library.

Cabs may always be found in the principal streets. The usual charge for short distances is 1/- (for two passengers) though sometimes (thanks to keen competition), the nimble sixpence suffices. For fixed tariff, see "*Cab Regulations*." Private Carriages may be engaged from the various Livery Stables. For other means of locomotion, see *Tramways, Railways or Steam Service*.

Dealing with the denominations in Alphabetical order the places of worship in or near the city are :—

**STEAM SERVICE.**—The Government Steamers *Iere* and *Paria* ply between Port-of-Spain and Chacachacare, calling at the various picturesque islets which form the holiday seaside resort for city folk. The steamers *St. Patrick* and *Naparima* run southward from San Fernando to La Brea and Cedros, connecting with the trains at the first-named place. For Fares, Time Table, etc., see **Gulf Steamers and Railways**. In the weekly trips round Trinidad and Tobago, by the R. M. Steamer *Belize*, fares are moderate, and the tariff for Board reasonable.—See (**Coastal Service**).

**TOWN HALL.**—The offices of the Municipality of Port-of-Spain are on the north side of Woodford Square. ## COUNTRY DISTRICTS.

---

**ARIMA.**—Population 4,020. A Borough 45 minutes journey from Port-of-Spain by rail. On Santa Rosa Day the 31st August, Arima is always *en fete* with races and festivities. Beyond this town the cultivation of sugar gives place to that of cacao. Mr. W. Beckles has been Mayor since November, 1907. The Roman Catholic Church has been lately restored, and a large Boys' school built by the late Very Rev. Mgr. de Martini. The pedestal clock in the centre of the town is the gift of Mr. John Wallen, a former Mayor.

**COUVA.**—A town about 25 miles from the capital, near which are estates connected with Brechin Castle and Waterloo usines. Gran Couva road running west taps the fertile cacao district of Montserrat. Population 2,285. Couva Ward Union, 15,107.

At **DABADIE** near by, are the Palm Nurseries of Mr. Eugene André, better known and appreciated in the States than in Trinidad.

**DIEGO MARTIN BLUE BASIN.**—This pretty Cascade about nine miles from Port-of-Spain is a favourite haunt for picnic parties; Carriage fare from 18/-. On the road about half way is the Boys' Reformatory. Further on is the River Estate, a property of the Government where extensive experiments in Cacao cultivation are carried on.

**ISLANDS, THE.**—The islets at the Bocas and near the Quarantine Ground being practically the only sea-side resort for weary town folk, have upon them furnished houses—which are let for short periods, or by the month. For terms see “**Quarantine Islands,**” and “**Private Residences at the Islands.**” Good fishing is generally to be had. Communication every day except Sundays, Tuesdays and Thursdays

**MARAVAL RESERVOIRS.**—Between 4 and 5 miles from Port-of-Spain, a pleasant drive, costing 7/6. The bright-hued crotons, graceful palms, delicate ferns and luxuriant tropical growth make the reservoirs always attractive to tourists.

**PITCH LAKE, LA BREA.**—Accessible by Government Steamer on certain days. Excursion tickets on Saturdays. For Fares see “Gulf Steamers.” The “Lake” covers a district of about 104 acres, and besides being one of nature’s wonders, it plays an important part in the commerce of the island. The revenue from asphalt during the year 1912, reached the respectable sum of £63,453; twenty-eight years ago it was £855! In 1898 the lease of the Pitch Lake was transferred to the New Lake Asphalt Company of London, to whom the jetty and works at Brighton (La Brea) belong. Huge tanks have been built for storing the petroleum oil which abounds in the neighbourhood.

**PRINCES TOWN.**—Population, 4,438. Princes Town is 7 miles from San Fernando, by road, a pleasant drive through sugar estates and villages. Prior to the visit of Prince Albert Victor and Prince George (now our Sovereign King) when cruising in H.M.S. *Bacchante* in 1880, it was known as the Mission. Near Hindostan estate are the mud volcanoes called the “Devil’s Woodyard.” Princes Town has Anglican, Roman Catholic, Wesleyan, Baptist, and Presbyterian Churches. Population Savana Grande Ward Union, 37,707.

**ST. JOSEPH.**—Population, 2263. The capital in the old Spanish days, is 6 miles from the city and having a good local train service has become popular as a place of residence for city business men. There are churches for Anglicans, Presbyterians and Roman Catholics. The last-named is probably the oldest in the island, and its fine old stained glass windows are a relic of the days when St. Joseph was a place of note. Its beautiful marble altar, Gothic lately erected at a cost of £500, is certainly the finest in the island. The present church was built in 1815, and celebrated its centenary in 1915. Maracas Fall is about six miles from the Railway Station in the direction of El Tucutche, the loftiest peak in Trinidad. The charge for a carriage from Port-of-Spain to the Fall, including return is from 30/- to 40/-. The drive is rather tedious, as a number of streams have to be forded, but when once the journey is accomplished the surpassing beauty of the scene amply rewards the visitor for his pains. The water falls from a height of 340 feet, but it is best seen when the uncertainty of the weather makes travelling not always agreeable. The Government stock farm at Valsayn is notable as the spot where the treaty of capitulation was signed by Don Chacon, the last Spanish Governor.

A monastery has been established by the Benedictine Order on the hill side between St. Joseph and Tunapuna, now known as Mt. St. Benedict, for the training of youths in agriculture and industrial occupations.

**SAN FERNANDO.**—Population, 9,240. This Borough, 35 miles by rail from Port-of-Spain, is the centre and chief port of the sugar producing district of Naparima. With the business portion of the town on the lowland and the pretty suburban residences peeping through the wooded slopes of the hill-side, it presents a picturesque appearance from the harbour.

Harris Promenade (named after Lord Harris) is a favourite resort on the occasion when the Constabulary Band plays; near by are the Churches of the Anglicans, Roman Catholics, Wesleyans, Presbyterians; as also the Constabulary Barracks, Court House, Town Hall, Fire Brigade Depot and Hospital.

San Fernando Volunteers ("E" Company of the Battalion) drill in their Drill Hall on Paradise Lands. Union Range, about three miles from the town, affords shooting facilities up to 600 yards. Besides the Infantry, Naparima furnishes an efficient Troop of Light Horse commanded by Major John Moodie.

The Fire Brigade consists of 25 Volunteers, under Commandant Vilain.

Usine Ste. Madeleine, the central factory of the Ste Madeleine Sugar Co. Ltd., under the supervision of Mr. Mark Moody-Stuart, is the largest in the island, being furnished with a magnificent plant thoroughly up-to-date, and turning out from ten to fourteen thousand tons of sugar annually. Amongst other important factories is that of La Fortunée, for Lord Glenconner's estates.

The Rev. Canon Doorly (Rector of St. Paul's and Rural Dean) is an accomplished musician to whom Trinidad owes not a little.

Naparima College, San Fernando Training School, the Presbyterian Theological College and the High School for Girls, are all controlled by the Canadian Mission, the first-named being affiliated to the Queen's Royal College.

There are 8 Primary Schools within the limits of the Borough.

Municipal Government was conferred on this second town of importance in the Island in 1846. The Hon. Hugh McLelland has been re-elected Mayor for 1919.

**TACARIGUA.**—Population (including Tunapuna) 7,695. In this district are many schools and churches. The Anglican Orphanage and Industrial School established here in 1857 for the maintenance and instruction of East Indian Orphans only, is now extended to orphans of any race. This excellent institution is under the management of the Rev. W.M. Springer, B.A., while Mr. Harry Healy is the capable Superintendent. Thanks to the efforts of Rev. Mr. Springer the rector of the parish, the old Anglican church of St. Mary's was superseded in 1902 by a new and substantial building.

Orange Grove estate has the largest sugar factory in this part of the island. Here the late Mr. Bert de Lamarre established a factory for the manufacture of paper, but which is at present closed down. The Tacarigua Rifle Association has a range on El Dorado Estate.

**TUNAPUNA.**—This is no longer a village, but a large and growing centre, stretching out to St. Joseph at one end and to Tacarigua at the other. The Warden's Office and the Local Road Board are located here. In it are to be found many churches and schools, and it has been remarked that no town for its size in the colony has so many Friendly Societies as Tunapuna. To provide entertainment and recreation for this growing suburb, "The Palladium Cinema" built a hall last year which has been well patronized. At St. Augustine there is a large residential quarter, and a recreation ground. Here is also a large Cane-farming centre. The Yaws Hospital is situated in this district. Population (including that of Tacarigua Ward Union) 7,695.

For more complete information about Trinidad, the visitor is referred to Collens's "Guide to Trinidad," price 5/-. the "Book of Trinidad" edited by Mr. T. B. Jackson, price 2/6, or A Handbook for Settlers issued by the Board of Agriculture, price 6d.

## TOBAGO.

THE Island of Tobago is situated to the north-east of Trinidad, in about 11 deg. 9 min. North lat., and 60 deg. 12 min. W. long. Its geological structure is similar to that of northern mountains of Trinidad, which are of Paleozoic age. The central or main ridge of the Tobago hills reaches a height of over 1,800 feet. From it flow most of the numerous streams of the island, the principal of which is the Courland River, named after the Viking Duke of Courland, who in the 17th century exercised almost sovereign sway in Tobago. Man-of-War Bay on the north-east quarter, is capable of affording safe anchorage to any number of the largest shipping.

Tobago became known to the eastern world through its discovery by Columbus, in 1498, it being then populated by Indians probably of Carib origin. Taken possession of by the British in 1850, it subsequently passed into the hands of the Dutch and French, and after many vicissitudes, was finally ceded to the British in 1814. The population, by the census of 1911 was shown to be 20,749.

The Exports are sugar, molasses, coconuts, live stock, cacao and rubber. In former years, cotton and indigo were important factors, but were gradually ousted by sugar. About two-thirds of its area still remain uncultivated, being covered with virgin forest whose magnificent hardwood timber might be turned to good account by an energetic, enterprising farmer or planter. In fact, with a salubrious climate, charming scenery, productive soil, a fair supply of cheap labour, it offers a fine field for any agriculturist with a little capital. Tobacco is being cultivated in recent years, and quite lately horse-breeding is being carried on.

The chief town is Scarborough, formerly called Port Louis. In 1780, during a mutiny of the French Garrison at the Fort, it was completely destroyed by fire. The town of to-day is prettily situated at the base of a hill near the shore of Rockley Bay. The principal buildings are the Government Offices, Police Barracks, Anglican Wesleyan and Roman Catholic Churches, Court House, Club, and Colonial Hospital. Of the numerous villages, Plymouth, Roxborough, Mt. St. George, Moriah and Charlotteville are the most flourishing.

Tobago, formerly a dependency of the Windward Islands was amalgamated with Trinidad in 1889, being administered by a Commissioner. It became a Ward of Trinidad on the 1st of January, 1889, and with this administrative change there very soon came increased agricultural and commercial activity. The experimental appointment of a Produce Agent quickly showed the possibilities in a fruit and provision trade, which has grown enormously. Several men of means have purchased properties and actually settled in the island. Under these new conditions, and especially with the influx of capital, Tobago is making wonderful strides. No longer need the capitalist hesitate to invest his money; with ordinary precaution he may be absolutely certain of obtaining an interest of six and even eight per cent. on his principal.

Two banks operate here now, The Royal Bank of Canada and the Colonial Bank. These were opened during the year 1917.

# MUNICIPALITIES.

## CITY OF PORT-OF-SPAIN.

### THE BOARD OF CABILDO.

1783—1840.

Before the island of Trinidad became a British possession, it previously belonged to the Crown of Spain and its Chief City was the Town of St. Joseph. This town was managed by a Board called "The Cabildo," a kind of municipal corporation, vested with extensive powers and enjoying great privileges. In the year 1783 this body removed its meeting place to Port-of-Spain, which by that time had been officially recognised as the Chief City. On the Capitulation of the Island, in the year 1797, the management of the Town remained vested in this Corporation, which continued to keep its Minutes in the Spanish language, until 21st June, 1813, when Sir Ralph James Woodford, Governor and President, made the following Order:—"That from this day's meeting and henceforward the Minutes and Resolutions of the Cabildo be enregistered in the English and Spanish languages." This practice ceased on 13th December, 1813, and the Minutes thereafter were recorded only in English. Of the Cabildo Dr. de Verteuil, in his interesting *History of Trinidad* says: "This Corporation was a self-elected body, exercising jurisdiction partly general, partly municipal and judiciary. It consisted of the Governor, as President, and twelve members, two of whom were elected 'Alcaldes' of the first and second election, or 'alcaldes' in ordinary. It was lawful for the cabildo to levy duties and impose taxes, but their municipal jurisdiction did not extend beyond the limits of Port-of-Spain."

The following were the members of the Illustrious Board of Cabildo in 1813:—

### THE TOWN COMMISSIONERS.

1899—1907.

On the 18th January, 1899 as the outcome of a long controversy between the Council and the Government, an Ordinance No. 1 of 1899 (No. 211 of the Revised Edition of the Laws of Trinidad) was passed by direction of the Secretary of State, the Right Hon. Joseph Chamberlain, abolishing the Borough Council of Port-of-Spain, and substituting for it a new corporation under the name of the "Town Commissioners," the members of which were all nominated by the Governor, Sir Hubert E. H. Jerringham, K.C.M.G. The first Commissioners so nominated by His Excellency the Governor were :—

Hon. S. W. KNAGGS, *Chief Commissioner.*

Hon. VINCENT BROWN, Q.C.

Hon. GEORGE GOODWILLE

Mr. LEON AGOSTINI.

The Chief Commissioner received for his services an honorarium of £300; and each of the other Commissioners £100 per annum.

On the appointment of Hon. S. W. Knaggs, as Colonial Secretary of Barbados in February, 1903, the Hon. Vincent Brown was appointed to act as Chief Commissioner. The vacancy created in this body by the retirement of Mr. Knaggs was filled by the appointment of Mr. D. B. Horsford who had previously held an acting appointment on the Board. On 4th November, 1903, the Hon. R. Gervase Bushe was appointed to act as Chief Commissioner

and so continued to act until the last meeting of the Commissioners on July 27th, 1907. Mr. Clarence Ross also acted as Chief Commissioner from 20th September, 1906 to 18th October, 1906.

On the death of Mr. Léon Agostini in April, 1906, Mr. Adam Smith was appointed a Commissioner.

At various periods Messrs. Lucien F. Ambard, Alfred S. Bowen, and James Wilson (tertius), held acting appointments on the Board.

### **THE WATER AND SEWERAGE AUTHORITY.**

1904—1907.

In 1904 the Water Works and Sewerage Works, which up to then had been under Government administration, were placed under the management of a Board known as the "Port-of-Spain Water Authority and the Board of Commissioners of Sewerage." This dual Committee held its first meeting on 29th September, 1904. The *personnel* of that Board was as under:—

|                                   |                                            |
|-----------------------------------|--------------------------------------------|
| Hon. R. GERVASE BUSHE, Chairman   |                                            |

| Dr. G. H. MASSON                  |                                            |
| Mr. L. A. WHARTON                 |                                            |
| Mr. HENRY J. VIEIRA               |                                            |

### **THE TOWN BOARD.**

1907—1914.

On the 1st of May, 1907, the then three local authorities of Port-of-Spain, viz.: The Town Commissioners, the Water Authority and the Sewerage Board, were by "the Port-of-Spain Town Board Ordinance," 1907, merged into one body, known as "the Port-of-Spain Town Board," also a wholly nominated Corporation. The following were the original members of this Board:—

Hon. ADAM SMITH, Chairman.  
 Hon. D. SLYNE,  
 Hon. W. C. L. DYETT,  
 Dr. G. H. MASSON,  
 Mr. L. A. WHARTON, K.C.  
 Mr. HENRY J. VIEIRA,  
 Dr. E. PRADA,  
 Dr. J. R. DICKSON,  
 Mr. F. E. SCOTT,  
 Mr. WILLIAM SCOTT,  
 Mr. THOMAS BOYD,

The Chairman received as a remuneration for his services the sum of £300 per annum.

At a special meeting of the Town Board convened for the purpose on the 3rd March, 1910, a historic debate took place on a motion by Mr. L. A. Wharton for the gradual supersession of the nominated system by some measure of election of members by the ratepayers. The following record of the debate, taken from the official minutes of the proceedings is of interest:—

Mr. Wharton, in pursuance of previous notice given, moved:—

“That a humble submission be made to His Excellency the Governor, that, having regard to the Secretary of State’s despatch relative to the reconsideration of the government of the town after two years from the creation of the Board, the time has now arrived for introducing into the constitution of this Board additional members, such members to be elected by the citizens, with a view to the gradual substitution of an elected Council for the present Board.”

Seconded by Dr. Prada.

After discussion,

The Board divided as follows:—

*For the motion—5*

Mr. Wharton  
Dr. Prada  
Dr. Dickson  
Hon. W. C. L. Dyett  
Mr. F. E. Scott

*Against the motion—5*

Mr. William Scott.  
Mr. H. J. Vieira  
Mr. Thomas Boyd  
Mr. V. X. de Verteuil  
Hon. Adam Smith

Dr. Masson did not vote.

The motion was lost.

Mr. Wharton, with the leave of the Board, moved:—

“That a full report of the debate on the above motion be transmitted to the Colonial Secretary for the information of His Excellency the Governor, such report to be taken from the newspapers, with such necessary corrections as may be made by the Chairman and the Town Clerk.”

Seconded by Dr. Prada.

The Board divided as follows:—

*For the motion—7*

Mr. Wharton  
Dr. Prada  
Dr. Dickson  
Mr. William Scott  
Hon. W. C. L. Dyett  
Mr. F. E. Scott  
Hon. Adam Smith

*Against the motion—3*

Mr. H. J. Vieira  
Mr. Thomas Boyd  
Mr. V. X. de Verteuil

Dr. Masson did not vote.

The motion was declared carried.

Officially nothing came of the debate; but it cannot be doubted but that it served a purpose in helping the cause of the return to an elective system of government for the town which had been for some time previously under public discussion, and which from that time on became much a debated question.

Eventually, at an extraordinary meeting of the Legislative Council held on the 25th June, 1913, the Hon. Dr. Prada, himself at the time a member of the Town Board as well as of the Legislative Council, moved a resolution in the following terms:—

“That in the opinion of this Council it is desirable that there should be substituted in place of the Port-of-Spain Town Board a Council having the like powers and jurisdiction as the present Board but consisting, in the first instance, of the eleven nominated members of the existing Town Board, and four other members to be elected by the rate-payers, a proportion of the nominated members to retire by ballot every year and to be replaced by elected members until the Council shall become, within a period not exceeding two years, a wholly elected council, the retiring nominated members being eligible for election.”

This was seconded by the Hon. J. D. Hobson; but, after debate, an amendment proposed by the Hon. R. G. Bushe, Auditor-General, who had himself for some years been a Chief Commissioner of Port-of-Spain under the old Town Commissioners, was adopted by the Legislature, the principal effect of which was to make the period of transition three years instead of two years.

At another extraordinary meeting of the Legislature held on the 22nd August, 1913, the Governor, Sir George Le Hunte, G.C.M.G. laid on the table a despatch, No. 286 of the 29th July, 1913, from the Secretary of State for the Colonies, approving of the resolution passed by the legislature on the 25th June previously; and the Governor then announced the appointment by him of a committee comprising the following gentlemen, to consider the details of the proposed change in the construction of the Town Board:—

- Hon. H. C. GOLLAN, K.C., Attorney-General, (*Chairman*).
- „ R. G. BUSHE, C.M.G., Auditor-General.
- „ A. G. BELL, Director of Public Works.
- „ L. A. WHARTON, K.C.
- „ H. A. ALCAZAR, K.C.
- „ ADAM SMITH
- „ Dr. E. PRADA.
- „ ALEXANDER FRASER.
- Mr. JOSEPH BROWN.
- „ W. BLACHE WILSON.
- „ T. GEDDES GRANT.
- „ L. O. INNISS.
- „ E. M. LAZARE.
- Dr. G. H. MASSON.
- Mr. H. J. VIEIRA, with Mr. J. A. LAMY, Barrister-at-Law

Town Clerk of Port-of Spain, as Secretary. The report of this Committee was laid on the table of the Legislative Council on the 10th December, 1913, as Council Paper No. 182 for 1913; and the new Ordinance for constituting the City Council of Port-of-Spain was based on the lines laid down therein. Opportunity was also taken of the change in the constitution to entrust to the Town Clerk, Mr. J. A. Lamy, the task of consolidating and amending into one enactment the numerous ordinances relating to the control and management of municipal affairs in Port-of-Spain; and the following list of matters dealt with in the various "parts" of the new Port-of-Spain Corporation Ordinance, 1914, will shew how comprehensive was the work then undertaken:—

|                                  |                 |
|----------------------------------|-----------------|

The Ordinance was introduced into the Legislative Council on the 22nd April, 1914, and was passed on the 29th May the same year, coming into force immediately upon being signed by the Governor on the 26th June, 1914.

### THE CITY COUNCIL.

This Council came into existence on 26th June 1914, and, by the terms of the Port-of-Spain (Temporary Purposes) Ordinance 1914 consisted, until 1st November, 1914, of the following eleven nominated members then constituting the Town Board, viz. :—

Hon. Dr. ENRIQUE PRADA, Chairman of Council

Hon. ADAM SMITH,  
HENRY J. VIEIRA,  
Dr. JOHN R. DICKSON,  
FREDERICK E. SCOTT,  
Dr. GEORGE H. MASSON,

LEWIS O. INNIS,  
HILLIARY W. BRATHWAITE,  
THOMAS I. POTTER,  
W. BLACHE WILSON,  
JULES E. ATTALE

The Chairman of the Council received until the 1st November, 1914, when the first Mayor of the City was elected, as a remuneration for his services the sum of \$120.00 monthly.

In the interval between the 26th June 1914 and 1st November 1914 the Hon. Dr. Stephen M. Laurence and Dr. Charles F. Lassalle were nominated by the Governor to fill the casual vacancies caused by the absence from the Colony of the Hon. Adam Smith and Dr. John R. Dickson.

On the 2nd November 1914, the first election under the Port-of-Spain Corporation Ordinance 1914 took place, when there were elected by the burgesses the following four members, viz. :—

RANDOLPH RUST, Southern Ward,  
Dr. ARTHUR H. MCSHINE, North-Eastern Ward,  
EMMANUEL M. LAZARE, South-Eastern Ward,  
Hon. Dr. STEPHEN M. LAURENCE, Northern Ward.

The new City Council consisted of a Mayor, five Aldermen, and fifteen Councillors.

The Mayor, the Deputy Mayor and the Aldermen are elected by the Council. The term of office of the Mayor is one year, from the 1st November, and the same Mayor may not be re-elected more than three successive years. The term of office of the Deputy Mayor is also one year; and that of an Alderman is three years. The Councillors were until the 1st November, 1917, partly elected by the Burgesses and partly nominated by the Governor.

On 5th November, 1914, the Council elected the Hon. Dr. E. Prada the first Mayor of the City, and the following five members to be Aldermen:—Councillors Hon. Adam Smith, Frederick E. Scott, Henry J. Vieira, Dr. John R. Dickson and Hon. H. A. Alcazar, K.C.

On 17th December 1914, the Hon. Adam Smith was elected Deputy Mayor.

On the 30th September, 1915, Dr. John R. Dickson who was on active service in England with the R.A.M.C. having resigned his office as an Alderman, an election to fill the vacancy was held, when the Council elected Dr. George H. Masson an Alderman of the City.

On the 1st November, 1915, under the provisions of Ordinance No. 25 of 1914, Councillors Enrique Prada (Mayor), J. R. Dickson, H. W. Brathwaite and Michael P. Maillard, whose names had been drawn by ballot, retired; and Messrs. H. W. Brathwaite, Albert H. Cipriani, Michael P. Maillard and Dr. F. Ellis Bass were elected unopposed to fill the vacant seats.

Dr. E. Prada was, in accordance with a unanimously passed resolution of the Council, re-nominated by the Governor to fill the vacancy created by the resignation of Councillor W. Blache Wilson; and at the statutory meeting of the Council held on the 5th November, 1915, was re-elected Mayor of the City. At the same meeting, Alderman F. E. Scott was elected Deputy Mayor in place of Alderman Adam Smith.

On the 1st November, 1916, the following nominated members retired, their names having been drawn by ballot at a meeting of the Council held on the 28th September:—Councillors T. I. Potter, J. E. Attale, R. G. Vincent and L. A. P. O'Reilly. Councillor L. O. Inniss resigned his seat as a nominated member to seek election for the South-Eastern Ward; and Mr. T. I. Potter was nominated by the Governor in his place.

The elections of 1916 were marked by the holding of the first contested elections under the new Ballot Ordinance. For the Western and South-eastern Wards, Messrs. Gaston Johnston, (barrister-at-law) and L. O. Inniss, (Druggist) were respectively nominated, and these candidates were returned unopposed. In the Northern Ward, Messrs. L. A. P. O'Reilly and Arthur de Silva were nominated; and in the Southern Ward, Messrs. William F. Stodart and Henry Alexander de Freitas. Before the day of election, however, Mr. Stodart being advised legally that a doubt might arise as to whether he was not technically disqualified as a councillor by reason of his firm holding a contract with the Corporation, decided not to contest the seat; and although the election was still held, it was practically an unopposed victory for Mr. de Freitas, for whom no fewer than 169 votes were cast. The election in the Northern

Ward was a most spirited affair, Mr. O'Reilly, the successful candidate being returned with a total of 246 votes, as against 177 scored by his opponent.

At the statutory meeting of the Council held on the 9th November, 1916, the Hon'ble Dr. Enrique Prada was again unanimously re-elected Mayor of the city, thus achieving the distinction of serving for the maximum period allowed by law; and Alderman F. E. Scott was once again re-elected Deputy Mayor.

The City Council for the Municipal year 1916-17 was therefore composed as follows:—

**Mayor**:—The Hon'ble Enrique Prada.

**Deputy Mayor**:—Alderman Fred. E. Scott.

**Aldermen**:—Mr. F. E. Scott, Hon. Adam Smith, C.M.G., Mr. H. J. Vieira, Hon. H. A. Alcazar, K.C., and Dr. G. H. Masson.

**Councillors**—(a). **Nominated**:—Mr. T. I. Potter and Dr. C. F. Lassalle. (b). **Elected**:—Mr. Randolph Rust, Dr. A. H. McShine, Mr. E. M. Lazare, Hon. Dr. S. M. Laurence, Mr. H. W. Brathwaite, Mr. Albert H. Cipriani, Mr. Michael P. Maillard, Dr. F. Ellis Bass, Mr. L. O. Inniss, Mr. L. A. P. O'Reilly, Mr. Gaston Johnston and Mr. H. A. de Freitas.

On the 10th July, 1917, Mr. Joseph Arnold Lamy, Barrister-at-Law, who for 32 years had filled the position of Town Clerk and Treasurer of Port-of-Spain, died after a somewhat lengthy illness; and at a meeting of the Council held on the 25th October, the Hon. Dr. E. Prada, who had for three years in succession filled the Mayoral chair, was elected Town Clerk in place of Mr. Lamy, the Council having at a meeting held a day or two before, received the intimation of his resignation of the office of Mayor and elected the Deputy Mayor, Alderman Frederick E. Scott, Mayor in his stead for the remainder of the Municipal year.

### Elections 1917.

Under the provisions of the Corporation Ordinance, 1914, the usual number of seats to be filled at the November elections every year, is 5, one member for each Ward retiring every year. But owing to the fact that the remaining three nominated members retired on the 1st November, 1917, as well as the 4 elected members who joined the Council at its creation in 1914, the elections held on the 1st November, 1917 were unique in that for the only time there were seven seats to be filled by election. They were distributed as under:—

**Northern Ward**:—One.

**Southern Ward**:—One.

**North-Eastern Ward**:—Two.

**South-Eastern Ward**:—Two.

**Western Ward**:—One.

Nomination day was the 15th October, 1917, and when the time closed, the following nominations had been sent in to fill the seven vacancies:—

**Northern Ward**:—Messrs. William Ferguson Stodart, William Blache-Wilson.

**Southern Ward**:—Messrs. Randolph Thomas Hammond Rust, John Parry Farnum, Lawrence A. Achong, John Joaquim Camacho.

**North-Eastern Ward**:—Messrs. John William McCarthy, Arthur Hutton McShine, Lionel David Acham.

**South-Eastern Ward** :—Messrs. Emanuel Mzumbo Lazare, Charles Henry Pierre.

**Western Ward** :—Messrs. Thomas Irwin Potter, Joseph Gonzales, Henry Israel Jeffers, Jonathan Ryan.

Messrs. E. M. Lazare and Charles H. Pierre, a Solicitor and Barrister-at-law respectively, were therefore returned unopposed for the south-eastern ward, the former being re-elected after having completed a three year term.

The Elections in the remaining wards resulted as follows :—

**Northern** :—W. F. Stodart.

**Southern** :—Randolph Rust.

**North-Eastern** :—J. W. McCarthy and L. D. Acham.

**Western** :—H. I. Jeffers.

The whole of the five Aldermen also retired from office on the 9th November, 1917, and their places were filled by the re-election of Aldermen F. E. Scott, Adam Smith, H. J. Vieira, and Geo. F. Huggins, Councillor E. M. Lazare being elected an Alderman in the place of the Hon. H. A. Alcazar.

The casual vacancy in the South-Eastern Ward created by the election of Mr. Lazare as an Alderman was filled at a Special election held on the 6th December, 1917 by the return unopposed of Dr. A. H. McShine who had for 3 years been a Councillor for the North-Eastern Ward but had been defeated at the November elections.

On the 1st November, 1918, the following Councillors retired : Messrs. C. D. O'Neal (Northern Ward), M. P. Maillard (Southern Ward), L. O. Inniss (South Eastern Ward), H. W. Brathwaite, (North-Eastern Ward), and F. E. Bass, (Western Ward). In the southern, north-eastern and western wards there was no contest, the retiring councillors being re-elected on their nominations unopposed. In the northern ward Messrs. J. P. Farnum and C. P. David were nominated ; and in the south-eastern ward, Messrs. L. O. Inniss and J. A. E. Ryan. Both Mr. David and Mr. Ryan intimated that they were not desirous of standing for election, and that they had, in fact been nominated without their consent. In the absence of a provision in the law permitting them to formally withdraw, however, the election had to proceed, and resulted in the foregone conclusion of the election of Messrs. Farnum and Inniss respectively.

The new Council met on the 9th November, when Alderman F. E. Scott was unanimously re-elected to the office of Mayor ; and Councillor Rust to the office of Deputy Mayor.

### **PUBLIC HEALTH.**

As from the 1st January, 1917, the City Council became the Local Sanitary Authority for Port-of-Spain under the new Public Health Ordinance, 1915, which the Government decided, on the strong representations of the City Council, to put in force as from that date. Dr. G. H. Masson, M.D., D.Sc., F.R.S.E., who had been a member of the Town Board from its inception, as well as of the old Water and Sewerage Board, and who, since the creation of the City Council, had served as a Councillor, and latterly was elected an Alderman of the City, was appointed Medical Officer of Health of the City at a salary of £400 a year, a committee of the City Council being appointed to organise the new department of Public Health.

Following is the permanent staff of the Corporation for the year 1919 :—

## POSTAL REGULATIONS.—Continued.

When the despatch of letters from a Post Office would be delayed by the despatch of parcels at the same time, the latter may be detained until the next despatch.

The postage on a parcel must be prepaid by means of postage stamps.

A parcel should not be posted in a letter box. It should be marked "Parcel Post," and presented at the counter of a Post Office, and the sender should see that the weight, size and postage are in good order before leaving. If a parcel is posted irregularly it will if fully prepaid at the rate applicable to any other post and admissible by that post be forwarded as a letter, unless it is eligible for transmission under Commercial Paper, Sample or Printed matter post. If insufficiently prepaid at the rate applicable to any other post but otherwise admissible by that post, be charged with double the deficiency or with deficient postage at the parcel post rate together with a fine of 1d., whichever is the less.

A certificate of posting may be obtained for all parcels.

The address of a parcel must be clearly written in English. A parcel bearing an address otherwise written will not be accepted unless a translation of the address is added. The address should be written on the parcel itself, and not merely on a label which may become detached. It is also desirable that the sender's name and address should appear on the cover of the parcel. In the latter case it must be kept distinct from the address to which the parcel is sent.

Parcels are, when re-directed, liable to additional postage at the prepaid rate for each re-direction, except where the original and second address are both within the delivery of the same Post Office, and the re-direction is made within the free re-direction allowed for other classes of correspondence. A parcel however, will not be delivered free of charge to a person who has previously refused to accept it, and for re-direction from the Returned Letter Office a second postage is invariably charged.

If an undelivered parcel bears on the cover the name and address of the sender, it is returned to him at once. If the name and address of the sender are not shown on the cover, the parcel is sent to the Returned Letter Office, where it is opened and examined. If it is found to contain the name and address of the sender it is returned to him. No charge is made for the return of an undelivered parcel to the sender.

Parcel Post business will not be transacted on Sundays and Public Holidays. Parcel Post business will only be transacted at the General Post Office between the hours of 9 a.m. and 4 p.m. on ordinary week days, and at 5 p.m. on the day preceding the out-going English Mail by the Royal Mail Steamers. And at the Sub-Post Offices between the hours of 9 a.m. and 4 p.m. on ordinary week days.

It is prohibited to send by Parcel Post, the following :—Indecent or obscene print, painting, photograph, lithograph, engraving, both on card or an indecent or obscene article whether similar to the above or not.

Letters, ice, gunpowder, cartridges, lucifer, or other matches, explosive substances, bladders containing liquids, live animals, grossly offensive or filthy matter, or anything in a condition likely to injure parcels, or any Officer of the Post Office. Every Postal parcel found containing the above mentioned prohibited articles may be seized and detained by the Postmaster-General and the sender will be liable to prosecution.

### 8.—Inland Post.—Miscellaneous Information.

**Evasion of Postage.**—Nothing sent through the post may contain an enclosure which is directed to a name and address different from the name and address borne on the cover, and which is enclosed with the intention of evading postage. Any such forbidden enclosure, if observed, is liable to be taken out and forwarded to the addressee charged with separate postage at the prepaid rate.

**Return of Correspondence.**—The first duty of the Postmaster-General is to deliver correspondence as addressed. He cannot intercept correspondence once posted, and return it to the senders.

**Correspondence for Government Offices.**—Correspondence addressed to Government Departments should be prepaid by the senders unless it is on strictly official business and addressed to the head of the Department in his official title.

**Complaints.**—Inquiries or complaints on Post Office subjects should be addressed to the Postmaster-General.

**Postmasters and the Public.**—Postmasters are not allowed to return any correspondence to the writer or sender or to give it to anyone else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

**POSTAL REGULATIONS.—Continued.**

Postmasters are not bound to give change when receiving a payment ; nor are they authorised to demand it when making a payment ; and when money is paid at a Post Office, whether as change or otherwise, no question as to its right amount, goodness or weight can be entertained after it has been removed from the counter.

Postmasters are not bound to weigh for the public letters, or newspapers brought for the post, but they may do so if their duty be not thereby impeded. This rule does not apply to parcels, which are tested both as to weight and size before being accepted.

Postmasters have no discretionary power to supply information respecting correspondence to persons other than those to whom it is addressed. They are not allowed to make public any official information of a private character.

If any packet be forwarded under cover to any Postmaster with a request that he will re-post it at his office, the packet, on being reposted, will be endorsed with the words " posted at \_\_\_\_\_ " under cover, to the Postmaster of \_\_\_\_\_."

**Addressing Correspondence.**—Every address should be clearly written, and above it a clear space should be left for postage stamps (which should be affixed to the right hand top corner of the cover) and for the various marks of the Postal Service.

**Disposal of Undelivered Correspondence.**—Undelivered Postal Packets or parcels which bear on the outside the full name and address of the sender are returned direct and unopened. Any other undelivered inland letter or parcel is forwarded to the Returned Letter Office, where it is opened ; and if it contains the sender's address it is returned to him. Undelivered letters which contain neither sender's address nor any enclosure of importance are destroyed.

Undelivered parcels which do not contain the address of the sender and are not applied for are liable to be disposed of three months after the date of receipt at the Returned Letter Office. Perishable parcels will be dealt with as may be requisite.

### 8.—Undelivered Correspondence.

“ Undelivered Postal Packets ” of all kinds are, as a general rule, disposed of in the same manner as inland correspondence. No charge is made for the return to the sender of fully prepaid correspondence of any class except parcels and packets of printed papers prepaid  $\frac{1}{2}$ d which are charged a further  $\frac{1}{2}$ d each on return.

### 9.—Registration.

Letters, postcards, books, packets, patterns, newspapers, etc., can be registered to any part of this or the neighbouring Colonies, the United Kingdom or abroad upon payment of a fee of two pence for each packet to be registered (to be affixed by means of postage stamps) in addition to the postage

N.B.—Parcels cannot be registered.

Registered articles must be prepaid as regards both postage and registration fee.

No letter or other article addressed to initials or in pencil can be registered.

Every letter presented for registration must be enclosed in a strong cover securely fastened in such a manner as to render impossible the opening thereof without damage to the cover.

Articles to be registered must be given to an employee of the Post Office and a receipt obtained for them : they should on no account be dropped into the letter box.

A packet bearing the word “ registered ” or any other word, phrase, or mark to the like effect, if dropped into a letter box, will be forwarded registered, provided the stamps affixed are sufficient to cover the postage and registration fee. If not the package will be returned to the sender.

Note.—The sender of a postal article is recommended to write his name and address on the back of the cover, so that the postal article, in the case of non-delivery, may be returned to him unopened and without delay.

No registered article shall be delivered to the addressee unless, and until he or his duly authorised Agent has signed a receipt for it in such form as the Postmaster-General shall prescribe.

### 10.—Insurance of Letters and Parcels.

Insured articles will not only have all the advantages of the registration system but if they or their contents are lost in the Post, the senders, will, subject to the following regulations, have a claim to compensation :—

Postcards, or packets of “ Printed Papers,” or “ Commercial Papers,” or “ Sample Packets cannot be insured. The letters to which the Insurance system is specially applicable are those which contain bank notes, bonds, coupons, securities, etc.

Letters intended for insurance must be presented to an officer of a Post Office.

Insured letters may not contain coin, anything made of gold or silver precious stones, jewellery, or any article liable to Customs duty in the country of destination.

Insured letters must not be addressed to initials, or in pencil.

Every letter packet tendered for insurance must be enclosed in a strong cover, which must be securely fastened and sealed with fine wax, in such a way that it cannot be opened without either breaking the seals or leaving obvious traces of violation. Envelopes with black or coloured borders must not be used. No labels may be affixed except those of the Postal Service. Seals must be placed over each flap or seam of the cover of the packet ; and if the packet is tied round with a string or tape, a seal must be placed on the ends where they are tied.

All the seals on a letter must be of the same kind of wax, and must bear distinct impressions of the same private device. Coins must not be used for sealing ; and the device must not consist merely of straight, crossed or curb lines which could readily be imitated.

If a letter tendered for insurance does not, in the opinion of the Officer of the Post Office to whom it is tendered fulfil the foregoing conditions as to packing and sealing, it is his duty to refuse to insure it. Nevertheless the onus of properly enclosing and sealing the letter lies upon the sender ; and the Post Office assumes no liability for loss arising from defects of the cover or the seal which may not be observed at the time of posting.

## POSTAL REGULATIONS.—Continued.

The amount for which a postal article is insured (which must not exceed its actual value) must be written by the sender both in words and in figures at the top of the address side of the cover, thus :—“Insured for fifteen pounds (£15).” No alteration or erasure of the inscription is allowed. If a mistake is made the entry must be completely obliterated and an entirely new one made by the sender.

The sums payable for insurance are as follows :—

| Fee |    | Limit of Compensation. |    | Fee |     | Limit of Compensation. |    |
|-----|----|------------------------|----|-----|-----|------------------------|----|
| s.  | d. | £                      | s. | d.  | £   | s.                     | d. |
| 1   | 8  | 12                     | 2  | 4   | 72  |                        |    |
| 1   | 0  | 24                     | 2  | 8   | 84  |                        |    |
| 1   | 4  | 36                     | 3  | 0   | 96  |                        |    |
| 1   | 8  | 48                     | 3  | 4   | 108 |                        |    |
| 2   | 0  | 60                     | 3  | 8   | 120 |                        |    |

And 4d. for every subsequent £12 up to £400.

The fee (which includes the registration fee) must be prepaid, in addition to the full postage by means of postage stamps, which the sender must affix to the cover of the letter.

As few stamps as possible should be used to prepay the postage and insurance fee. They must not be folded over the edge of the cover, and when more stamps than one are used, they must be affixed with spaces between them.

A certificate of posting must always be obtained by the sender of an insured article. He may also obtain an acknowledgment of the delivery of the article on paying a fee of 2½d.

Letters which, although addressed to a country or place to which the insurance system does not extend, have been irregularly insured, will be returned to the senders. The same course is followed in case of post cards, packets of printed papers, etc., irregularly accepted for insurance.

When an insured letter or parcel is redirected from one country to another a fresh insurance fee becomes payable for each such transmission. If this fee is not prepaid, it is collected from the addressee on delivery. Insured packets can only be re-directed to countries which have adopted the insurance system.

Compensation for the loss in the Post of an insured letter or its contents or for the loss or damage of an insured parcel will not exceed the amount of the actual loss or damage, and will not be paid at all for a packet containing any prohibited article, or for any packet which has been delivered without external trace of injury and has been accepted without remark by the addressee ; nor does it follow as a matter of course that compensation will be given when loss arises from tempest, shipwreck, earthquake, war, or other causes beyond control. No claim for compensation will be admitted if made more than a year after the packet was posted.

No legal liability to give compensation in respect of any packet for which an insurance fee has been paid attaches to the Postmaster-General, either personally or in his official capacity. The final decision upon all questions of compensation rests with the Postal Administration of the country in which the loss or damage has taken place.

Any insurance effected with the Post Office contrary to the foregoing regulations is invalid.

The insurance system is conducted through the medium of the United Kingdom, except in the case of those countries with which this Administration has a direct parcel post service.

### 12.—Rules and Regulations for the Money Order business between Trinidad and the United Kingdom.

The maximum amount for which a Money Order may be drawn on the United Kingdom is fixed at £40. No order may include the fractional part of a penny.

The following tables show the rates of commission which are at present in force subject to the changes in the Bank of England rates of Exchange.

| For any sum exceeding £ 9 but not exceeding £10  | 3/4     | 2/6      |

and so on up to £40.

The rates for Intercolonial Money Orders are the same as for Inland Post

Applications for Money Orders must be made on the printed forms obtainable for the purpose at all Money Order offices.

With the following exceptions, no Money Order will be issued unless the applicant furnishes in full the surname and at least, the initial of one christian name, both of the remitter and payee together with their addresses :

(a). If the remitter or payee be a Peer or Bishop, his ordinary title will be sufficient; if a firm, the usual designation of such firm, such as, "Robinson Brothers," "Smith & Sons," "Jones & Co.," will suffice.

(b). The remitter may request at the time of issue that the order may be crossed like a cheque thus & Co. in order that it may be paid only through a bank, or the remitter may cross the order after obtaining it.

If when an Order is presented for payment (otherwise than through a bank) it is properly receipted, and the name of the remitter as furnished by the applicant, is in agreement with the advice, it will be paid, unless the Postmaster has good reason for believing that the applicant is neither the payee nor his agent. In the case of a Money Order payable to any Company, Corporation or Society, the name of the payee must be stamped or written in the receipt space, and the person presenting the Order must also sign his own name, and state his office in the Company.

In the event of a Money Order payable in Trinidad miscarrying or being lost, a duplicate will be granted on a written application from the payee containing the necessary particulars to the Postmaster-General, Trinidad.

On receipt of a similar application, orders will be given to stop payment of a Money Order or to renew a lapsed order. The additional commission in the last case will be deducted from the amount of the new order.

But when it is desired that any error in the name of the remitter or of the payee should be corrected, or that the amount of a Money Order should be repaid to the remitter or that a lapsed order should be renewed for payment in the country of issue, application must be made by the remitter to the Chief Money Order Office of such country.

Repayment, whether of an original, a renewed, or a duplicate order, will not be made to the remitter until it has been ascertained through the Chief Office of the country where such order was payable that the advice has been cancelled at the office on which the order was originally drawn. A fee equal to the amount of the commission charged on the original order will be collected for this service.

At the end of twelve months from the month in which it was issued, a Money Order, if still unpaid becomes void, but when a good reason can be given for the delay in presenting it, an application for a new order (for which a second commission to be deducted from the amount of the order, will be charged) may be entertained.

The remitter of a Money Order to the United Kingdom can obtain on application an acknowledgment of its due receipt by the payee on furnishing the issuing officer with a paper bearing his full address and on paying a special fee of 2½d. in addition to the amount of the Money Order and the commission payable thereon.

## POSTAL REGULATIONS.—Continued.

After once paying a Money Order by whomsoever presented the Postmaster-General is not liable to any further claim, nor is he liable to any compensation for loss or injury arising out of delay in payment of a Money Order, or out of any other irregularity in connection with an order.

Postmasters and Sub-Postmasters are instructed to pay no order unless the advice has been previously received, and unless that advice bears the stamp of the Port-of-Spain Office.

The interchange of "Through Orders" is conducted through the medium of the General Post Office, London, and all Advices of such Orders have to be sent to London whence the amounts are re-advised to the country of payment.

In addition to the commission charged between Trinidad and London, there will be a further commission charged on "Through Orders" as follows:—3d. for sums not exceeding £5 and 3d. for each £5 or fraction of £5 additional.

The above commission is to be added to the amount of the order as it will be deducted from the amount advised to be paid to the person to whom the order is being sent.

The full address of the person to whom the money is to be paid must be given to enable the London Office to arrange payment of the new order.

No Through Money Order must be issued for any sum including the fraction of a penny.

### 12a.—Telegraph Money Orders.

From the 1st July, 1916, Telegraph Money Orders for sums not exceeding the maximum amount allowed in the case of ordinary Money Orders, may be sent to and received from the United Kingdom.

The charges for Telegraph Money Orders issued in Trinidad and Tobago shall be as follows:—

- (a). Money Order Commission at the ordinary rate for Money Orders issued on the United Kingdom.
- (b). A charge for the Telegram of Advice at the ordinary rate for telegrams addressed to the United Kingdom, and
- (c). A supplementary fee of 6d. for each order.

The remitter of a Telegraph Money Order shall be allowed, on paying for the additional words required, to add to the Official Telegram of Advice any short communication in English which he may wish to send to the payee, and may also, if he so desires, prepay the cost of a telegraphic reply to such communication. The full rate per word will be charged for the prepaid reply.

The remitter of a Telegraph Money Order must furnish the full address of the payee. In all cases the Remitter bears the consequences if the address of the Telegram of Advice or that of the payee is incorrect or insufficient to insure payment to the proper person.

If a Telegraph Money Order is intended to be called for at a Post Office, the words "Poste Restante" must be written instead of an address after the payee's name. In the absence of these words, it must be assumed that the Order is to be sent out for delivery.

The Remitter may obtain an Advice of Payment on paying a fee of 2½d. and if he wishes the request for an Advice of Payment to be communicated to the Office of Payment in the Telegram of Advice, he must also pay the cost of including the words "Advise Payment."

Telegraph Money Orders can be sent from the following Post Offices:—General Post Office, Port-of-Spain; San Fernando; Scarborough, Tobago. They can also be sent from any Post Office in Trinidad or Tobago through the medium of the Head Office at Port-of-Spain.

Telegraph Money Orders will be paid at any Money Order Office in Trinidad and Tobago.

The general regulations relating to Foreign Orders apply, so far as they are applicable, to Telegraph Money Orders exchanged with the United Kingdom.

The Postmaster-General is not liable for any loss or damage which may be incurred or sustained by reason or on account of any mistake or default in the transmission or delivery of a Telegraph Money Order.

Broken amounts, but not fractions of a penny, may be made up by the use of Trinidad Postage Stamps not exceeding three in number and five pence in value affixed to the face of any one Postal Order.

The person to whom a British Postal Order is issued must, before forwarding it, fill in the name of the person to whom the Order is to be paid, and may fill in the name of the Money Order Office at which the amount is to be paid. The insertion of the name of the Paying Office affords a safeguard against payment being made to a wrong person.

Every person to whom a Postal Order is issued should tear off and retain the counterfoil; its production will facilitate enquiry if the Order should be lost.

In the case of the miscarriage or loss of any British Postal Order unless proof can be given to the satisfaction of the Post Office that the name of the payee was inserted in the Order before the holder parted with it, and unless the number of the Order can be furnished, the Postal Authorities of the United Kingdom, cannot undertake to trace the Order with a view of accounting for the miscarriage or loss thereof.

After a British Postal Order has once been paid, to whomsoever it is paid, the Postmaster-General of the United Kingdom or Trinidad will not be liable for any further claim.

If a Postal Order be crossed & Co. payment will only be made through a Banker; and if the name of the Banker be added, payment will only be made through that Banker.

No British Postal Order will be paid, except through a Banker, unless the name of the payee and the name of the office of payment have been filled in and the Order has been properly receipted.

A British Postal Order presented by, or through, a Banker for payment will not (in the absence of an express arrangement between such Banker and the Postmaster-General to the contrary) be paid until after such Order has been examined at the Chief Office in the country of payment.

## POSTAL REGULATIONS.—Continued.

If any erasure or alteration be made or if the Order is neither stamped nor signed by the issuing Postmaster, or be cut, defaced or mutilated, payment may be refused; in which case no refund of the value of the Order can be granted in Trinidad.

The purchaser of a British Postal Order is recommended not to delay the transmission of the Order to the payée. If an Order be not paid within three months from the last day of the month of issue, a commission equal to the original British poundage marked on the Order will be charged.

British Postal Orders will only be cashed at the General Post Office, Port-of-Spain, and all Money Order Offices, but they may be presented at any Post Office in Trinidad or Tobago and will be forwarded by the Sub-Postmaster to one of the Paying Offices and when cashed the amount of the Order will be handed by him to the Payee.

| over 3lbs. " " "       | 7 lbs.  | .. | 2/-. |
| over 7lbs. " " "       | 11 lbs. | .. | 3/-. |

These rates apply to the United Kingdom and British West Indies. All information regarding Parcels for other Foreign places can be obtained from any Post Office.

For the United States and Canada 6d. per lb. up to 11 lbs. No Insurance on parcels to United States and Canada.

Foreign and Colonial Parcels cannot be registered, but they may be insured under the conditions specified in the preceding rules, for insurance of letters and parcels.

Parcels are subject to Customs regulations. The sender of each parcel is required to make, for the Customs purposes—upon a special form or forms, which can be obtained at any Post Office—an accurate statement of the nature and value of the contents and other particulars.

Undervaluation of the contents or failure to describe them fully may result in the seizure of the parcels. The net weight or quantity of the different kind of articles contained in a parcel should be separately stated. Any other particulars should be given which would facilitate the assessment of Customs duty, such as the material of which clothing is composed, and whether it is new or not. In the case of articles returned to the country where they originated the fact should be stated.

The maximum weight for parcels sent to or through the United Kingdom is 11 lbs.

### 20.—CUSTOMS AND OTHER CHARGES PAYABLE BY SENDER.

Persons sending parcels to the United Kingdom and various other places by Parcel Post can if they desire take upon themselves the prepayment of the Customs duty and other charges which in ordinary cases are leviable on the addressee..

The sender cannot be told at the time of posting what the amount of these charges will be; but a deposit is taken, and a settlement will subsequently be made, when the total amount of the charges has been ascertained.

Parcels to be sent under this arrangement must be handed in at a Money Order Office. Persons applying at other Sub-Offices to send parcels under this arrangement must be advised to post them at the nearest Money Order Office.

The cover of the parcel must be marked by the sender "To be delivered free of charge," or "Franc de droits," and those words must also appear on the Letter bill from the Sub-Office—and must be repeated in the list forwarded with the parcels from the General Post Office.

The sender must fill up and sign a formal undertaking to pay on demand the amount of the charges due. Forms for this declaration are supplied to the Offices participating in this service.

They are worded as follows:—

(The sender is requested (1) to mark the parcel and the despatch note, if one is used, "To be delivered free of charge," (2) to affix personally to this form the stamps in payment of the deposit and fee, and (3) to see that the receipt at the foot is filled up, signed, and handed to him).

## POSTAL REGULATIONS.—Continued.

Great care must be taken to see that the address of the sender, as entered on the form of undertaking represents his settled residence or place of business. Such an address as "Poste restante" must not be accepted, nor the name of a hotel or lodging house, where the sender is only temporarily resident. If the sender is residing only temporarily in the Colony or cannot give a settled address, the parcel should not be accepted for delivery free of charge.

The fee for the service is 6d. per parcel and must be paid by a stamp or stamps affixed by the sender to his form of undertaking in the place indicated. In addition to this fee, the full postage payable must, of course, be prepaid in the ordinary way, and also, in the case of an insured parcel, the insurance fee.

The sender must also be required to make, on account of the charges for which he desires to provide, a deposit at the rate of 1/- for each 10/- or fraction of 10/- of the value of the parcel, as entered on the Customs Declaration form. In calculating the amount of the deposit, odd pence should be reckoned as a complete shilling.

Stamps to the amount of the deposit must be affixed by the sender to the form of undertaking in the place indicated. No stamps for postage or insurance fee must be put on this form.

When a parcel marked to be delivered free of charge is tendered for transmission to a country or place with which this system is not in force such marks must be obliterated before the parcel is accepted.

### 21.—Packing and Sealing.

The packing of parcels for places abroad should be more substantial than that required for the Inland Post with due regard to length of journey, conditions of transit, climatic conditions, etc.

### 22.—Prohibited Articles.

No letter, even if addressed in the same way as the parcel in which it is enclosed, may be sent in a parcel addressed to any Foreign country or to many British Possessions; but parcels for certain British Possessions may contain one letter only for the addressee. An invoice in an open envelope, giving simply particulars of the goods contained in the parcel, may be enclosed in any parcel.

No parcel is admissible which contains base or counterfeit coin; articles infringing trade-mark or copyright laws; oilskins or other similar oiled goods; carbon paper containing free carbon, and oiled paper; anything liable to become offensive or injurious through decay during the time ordinarily occupied in transmission unless enclosed in a hermetically sealed tin.

Coin unless declared for purpose of ornament or bullion exceeding £5 in value cannot be sent from this country to places abroad.

Coin, jewellery or any article of gold or silver cannot be sent by Parcel Post to any Foreign Country or British Possession included in the insurance system unless they are insured for at least part of their value, and are packed and sealed in accordance with the following special regulations.

### 23.—Insurance of Foreign Parcels.

Every insured parcel must be packed carefully and substantially, with due regard to the nature of the contents and the length of the journey, and must be sealed with wax, lead, or steel bearing a private mark, in such a way that it cannot be opened without breaking the seal or leaving obvious traces of violation.

Parcels containing coin, jewellery or any article of gold or silver, unless insured for at least part of their value, and for as much of the journey as the regulations permit, cannot be sent by Parcel Post.

Any such parcel posted as uninsured will generally be returned to the sender.

Insured articles must not be addressed to initials or in pencil.

### 24.—Undelivered Parcels.

If a parcel addressed to a place abroad cannot be delivered the sender is advised, provided that his address is given on the parcel or on the forms prepared by him at the time of posting; and his instructions for the disposal of the parcel are then communicated to the Post Office at which the parcel is lying.

## POSTAL REGULATIONS.—Continued.

Parcels remaining undelivered in certain foreign countries incur charges for warehousing.

Parcels returned from the Republic of Colombia, and also parcels returned from Spain after a period of four months from the date of posting, bear Customs charges in addition to postage; and the whole charge must be paid by the addressee or person authorising the return or redirection. In the Argentine Republic and Turkey a fee is charged for Customs clearance.

Parcels returned from one country to another incur fresh postage at the ordinary rates.

Parcels which cannot be delivered are, unless of a perishable nature, kept for a reasonable time in case of enquiry, but if ultimately unclaimed they are disposed of in such a manner as the Postmaster-General thinks fit.

### 25.—“Cash on Delivery” Service.

The Postmaster-General undertakes, on certain conditions, to collect from the addressee the value of an article sent by post and to remit it to the sender by Money Order or Postal Order.

The Service applies to parcels (uninsured or insured) and registered or insured packets of all kinds sent from Trinidad to the United Kingdom, Malta, St. Vincent, St. Lucia and Grenada to similar packets sent from those Administrations to Trinidad.

The amount to be collected under the “Cash on Delivery System” is called the “Trade Charge.”

The maximum Trade Charge will in no case exceed £20. The amount of the Trade Charge on a parcel must not exceed the amount of the declared value, together with the postage and the fees payable on the parcel.

A special fee of 2d. will be charged on every packet bearing a Trade Charge posted in the Colony in addition to the regular postage and insurance fee.

The delivery fees to be charged in this Colony on such packets when received from the United Kingdom are as follows:—

|                                               |     |
|-----------------------------------------------|-----|
| When the Trade Charge does not exceed £5      | 4d. |
| When the Trade Charge exceeds £5 but not £10  | 6d. |
| When the Trade Charge exceeds £10 but not £15 | 9d. |
| When the Trade Charge exceeds £15 but not £20 | 1/- |

Similar fees are deducted in the United Kingdom on Cash on Delivery Parcels from abroad.

The fee due to the office of posting must be paid with the other postal charges, but the amount of the fee due to the office of delivery will be deducted, with the commission on the Money Order or Postal Order by which the remittance is made, from the amount paid by the addressee.

The sender may arrange under certain conditions for the Trade Charge on a packet to be reduced or cancelled.

For this purpose the certificate of posting must be produced at the office at which the packet was posted, where full information can be obtained.

Packets on which Trade Charges are to be collected will only be accepted at Port-of-Spain, San Fernando and Tobago (Scarboro.)

Cash on Delivery packets are subject to the following special conditions.

The sender must write on the cover of the packet his name and full address, the amount of the Trade Charge in figures and words, and the name of the office on which the Money Order or Postal Order issued in payment of the Trade Charge is to be drawn.

No modification of the entry of the amount of the Trade Charge written on a Cash on Delivery packet will be permitted.

An incorrect entry must be completely obliterated and a fresh entry made.

A Request Form, including a declaration that the article is sent in fulfilment of an order must be filled up and signed by the sender.

Each Cash on Delivery packet must have affixed to it an orange coloured triangular label to be obtained at time of posting.

A Cash on Delivery packet will not be given up to the addressee, or opened by the addressee, or his Agent, or at his request until the charges due have been paid.

The amount of the Trade Charges collected from the addressees less the Money Order or Postal Order Commission and such fee for the Trade Charge Service as is prescribed will be remitted to the sender by means of a Money Order or British Postal Order drawn in his favour on the office specified for the purpose on the packet.

If a Cash on Delivery packet cannot be delivered it will be retained at the Office of delivery for fifteen days, exclusive of the day of arrival, during which time it may be obtained on application. At the expiration of this period it will be treated as undeliverable. The sender of a Cash on Delivery parcel which cannot be delivered will be consulted in ordinary course as to its disposal.

#### 26.—Miscellaneous.

# WIRELESS TELEGRAPHY.

Wireless Telegraphy was installed here in 1905, for the purpose of bringing the Island of Tobago into telegraphic communication with Trinidad. Subsequently, the stations were improved in order to communicate with ship-stations reliably at a range of 300 to 400 miles, and communication has since been uninterruptedly maintained. There are at present one station at Port-of-Spain, and another at Scarborough, Tobago. These stations are conducted by the Government—being a branch of the Public Works Department.

## TRINIDAD-TOBAGO WIRELESS SERVICE.

Telegraphic communication between Trinidad and Tobago is open to the public between the hours of 8 a.m. and 5 p.m. daily.

The Wireless Station in Port-of-Spain is a continuous station, is open day and night, and is situated at Marine Square. The Receiving Station in Tobago is situated at the Telephone Exchange in Scarborough.

The following is the scale of charges :—

**SAN FERNANDO SECTION.**

## Brief Sketch of the Town of San Fernando.

---

**S**HIS town, the second in the Island, is situated on the West Coast about 32 miles, South of Port-of-Spain, has a population of 9,240, and is a Municipality under the corporate name of "The Mayor and Burgesses of San Fernando." The selection of the site was not an accident, for it appears from Fraser's *History of Trinidad* that in the year 1786, the Crown granted to one Isidore Vialva a large area of land with a reservation of a portion for building the town of San Fernando. Jean Jaillet, a successor in title of Vialva, ignoring the terms of the grant, sold out the reserved portion in lots to various persons, who built houses thereon and thus formed the town. The excellent natural drainage, a result of the hilly configuration of the site, renders it more healthy than the neighbouring coast. This probably explains the selection of the spot in preference to the marshy district of Pointe-à-Pierre, which has the advantage of San Fernando in harbour accommodation, the harbour of the town being too shallow to allow the approach of ships to a distance within two miles from the shore.

The town is picturesquely situated between the Naparima Hill (600 feet) and the sea, some of the principal residences being clustered at the base of the hill.

The formation of the hill is cretaceous; large quarries have been cut into it for the supply of gravel for road repair and for other purposes. In various parts of the town, and especially in San Fernando Street, there are indications of petroleum.

In the year 1818 the town, then little more than a fishing village and a depot for the storage of the agricultural produce of the surrounding sugar estates, was completely destroyed by fire. It may be of interest to recall that at or shortly after this early date a small garrison of fifty Grenadiers was maintained on the site now occupied by the Isolation ward of the Hospital. According to a description by the Commandant taken from the "United Service Magazine," the town at that time was a long straggling street of wooden huts, its chief architectural beauties being a few tall shops painted a glaring white. In 1846 it had developed to the position which it now holds of being a port of shipment for the produce of the Southern district, and a business and residential centre. In that year it was granted the privilege of electing representatives for local government under the name of "The Town Council" at the head of which was a "President." The first local newspaper made its appearance in 1850 under the name of the *San Fernando Gazette* and the Editorship of Mr. Alexander Murray. It was issued bi-weekly and the price was 10 cents. A newspaper under the same name was edited for many years by the late Mr. Samuel Carter, but it has long since been discontinued.

The town then owed its prosperity to the numerous sugar estates which dotted the country on every side. To the South there lay a large area of undeveloped land which as a result of the opening up of the roads has now become the thriving cocoa district of Peñal and Siparia. The trade with these places, and more recently, the discovery of oil and the commencement of oil mining have materially increased the importance of San Fernando. Before 1882 there was no railway communication with Port-of-Spain, but there was a steamer service maintained by two small Gulf steamers, the *Alice* and the *Arthur*. In 1882 the railway between Port-of-Spain and San Fernando was completed, and in 1913 it was extended to Siparia.

In 1883 the business part of the town received a serious blow by a fire, which destroyed the premises on both sides of High Street from Penitence Street to Chancery Lane, the damage being estimated at \$233,000. As a sequel, in the following year a Volunteer Fire Brigade was enrolled and continues to perform its duty efficiently. The same year saw the formation of a Volunteer Rifle Corps and the erection of the present Post Office.

The town possesses a fine Hospital, built in 1860, and enlarged and improved in 1891, Constabulary Barracks and Court House in which since 1869, there have been sittings of the Supreme Court four times a year for the holding of Criminal Sessions and once a month in its Civil Summary Jurisdiction.

The most attractive spot in the town is Harris Promenade, in which are situated the Constabulary Barracks, Court House, Town

Hall (which was built in 1854), the Fire Brigade Station and the Anglican, Roman Catholic and Wesleyan Churches.

The schools for secondary education are the Naparima College (affiliated to the Queen's Royal College), the San Fernando Training School for Male teachers, the Presbyterian Theological College and the High School for Girls; all controlled by the Canadian Mission. There are seven primary schools (two Government and five denominational).

The Water supply leaves much to be desired, and in this respect the town has a chequered history. Experimental Schemes undertaken by the Government for the supply of water from La Coulée proved to be costly failures; and it was found that the water from all natural sources within the town was by reason of sulphur contamination unfit for human consumption.

In 1899 the present supply was introduced from the Union Springs, being pumped thence to the town a distance of about six miles. The Pumping Station is at Pointe-à-Pierre. This supply gives between 80,000 and 100,000 gallons per day—a quantity hardly sufficient for the population. The system is under the control of the San Fernando Water Works Authority, of which the Warden of Naparima is the Chairman. The revenue of the Authority is obtained from a water rate which now stands at the high figure of 8 per cent. The whole question of water supply is now under the consideration of a Committee of the Legislative Council.

The principal sources of general revenue are obtained from a five per cent. House Rate, Wharf dues imposed on imports and exports landed on or shipped from the San Fernando Wharf, and a tax on vehicles kept within the town.

In connection with the last tax it is worthy of mention that the Borough Council in 1912 led the way for the rest of the Colony by imposing it on all vehicles other than carts and hackney carriages which were already subject to taxation.

In 1853, San Fernando was raised to the dignity of a Borough, and the Town Hall was built in 1854. The Borough Council consists of nine members, who elect from their number a Mayor.

The Borough has an excellent record of Municipal Government. What the future of San Fernando will be, it is difficult to foretell, but it may be that, with the development of the oil mining industry, which in the opinion of experts will assume large proportions, the town will increase in size and become an important shipping place. When the railway was extended to Siparia in 1913, many there were who believed that the town would share the fate of many another place on ceasing to be a railway terminus. But these gloomy predictions have not been realized. Aided by its position as a sea port and by the enterprise of its business houses, San Fernando has not only held its own but has shown signs of increased trade and prosperity.

# THE CANADIAN MISSION.

## Historical.

The Canadian Mission began work among the East Indians of San Fernando in 1867, fifty years ago. The two great pioneer missionaries, Dr. John Morton and Dr. K. J. Grant were both identified with the efforts put forth in those early years. In 1881, Dr. Morton removed to Tunapuna; Dr. Grant laboured on at San Fernando for thirty years longer. Under the direction of these two men, and of the Rev. F. J. Coffin, Ph.D. and the Rev. S. A. Fraser, San Fernando became an important centre of the Canadian Mission work. That importance remains and is twofold, (a) Evangelistic, (b) Educational.

### (a). Evangelistic.

San Fernando is the centre for the work carried on in a large country district. It also possesses the largest East Indian congregation in the Colony. The country work is in charge of the Rev. H. F. Kemp, B.A., Susamachar Church has for its Minister the Rev. J. C. MacDonald, B.A.

### (b). Educational.

The Canadian Mission possesses two Government Assisted Schools in the Borough of San Fernando, the Coffee St. C.M.I. School and the Vistabella C.M.I. School. Both schools have good records.

In addition to these primary schools, the Canadian Mission carries on a fourfold educational work at San Fernando. (1). The Training of Catechists and Candidates for the Ministry. (2). The Training of Teachers for Elementary Schools. (3). Higher Education for Girls. (4) Higher Education for Boys.

(1).—The Training of Catechists and Candidates for the Ministry. The Students are drawn from all parts of the colony. Instruction is given in Old Testament, New Testament, Church History, Comparative Religions, the Theory and Practice of Missions, Homiletics, etc. The Rev. F. J. Coffin, Ph.D., is Principal of the Presbyterian College where this work is carried on.

(2).—The Training of Teachers for Elementary Schools. Rev. F. J. Coffin, Ph.D., is also in charge of the San Fernando Train-

ing School for Teachers. Twenty students are in attendance, six of whom are supported by the Trinidad Government. Several others have been sent over from the sister mission in British Guiana.

(3).—**Higher Education for Girls.** This work is a recent development. In September, 1917, the work for the "Higher Education for Girls" was removed to the new premises at La Pique. The new institution is an amalgamation of the Girls High School and the Ière Home, Princes Town. A large concrete dormitory has been erected which when completed will afford accommodation for over eighty girls. The staff consists of Miss A. Archibald, Principal, Miss Grace Beattie, B.A., and Miss N. Field. The work is carried on by these Canadian ladies assisted by local matrons and teachers.

(4).—**Higher Education for Boys.** The Naparima College is affiliated with the Queen's Royal College, Port-of-Spain. The College welcomes all races and seeks to provide for the needs of Secondary Education in the Southern districts of the Colony. Nearly ninety students are enrolled at present. The College has always stood well, the results obtained at examinations comparing favourably with those obtained at Queen's Royal College, St. Mary's College and St. Joseph's Convent. The present staff consists of Rev. F. J. Coffin, Ph.D., Acting Principal, Rev. W. A. Hunter, M.A., B.D., Head Master, Mr. H. Kangaloo, and Mr. A. Archibald.

During the year 1917, the College was removed from Oriental Hall to the new premises at Paradise Pasture. Two wings of the large College building have been erected as well as a new residence for the Head Master, dormitory for boys and a College chapel. The buildings are of concrete and when the plan is fully completed the College will be in a splendid position to carry on the work on an enlarged scale.

A manual Training department has been added this year, Agricultural courses and courses along other practical lines will be offered at an early date.
